

HYPERSENSITIVITY, TREATED.

REGENERATE ENAMEL MINERAL.*
TREAT HYPERSENSITIVITY PAIN.
MEDICAL DEVICE, CLINICALLY PROVEN.

HYPERSENSITIVITY

IS A SIGNAL FROM THE **NERVES WITHIN**

When teeth are sensitive, the pain felt is a signal from the nerves within. **Their vital enamel surface has worn away**, exposing the living structures underneath and making them vulnerable, causing hypersensitivity pain.

ENAMEL WEAR OCCURS
OVER TIME DUE TO:

ABRASION *Improper or excessive brushing, flossing, lifestyle habits (nails biting, vaping)*

ATTRITION *Teeth grinding*

EROSION *Acidic foods and drinks*

INTRODUCING
REGENERATE™

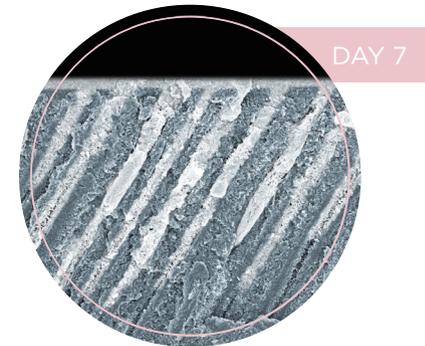

HYPERSENSITIVITY TOOTHPASTE

An extraordinary unique COMBINATION of revolutionary SCIENCE and refined BEAUTY.

A specially formulated medical device toothpaste clinically proven to treat hypersensitivity and stop pain.

DEEPLY RESCUES

THE EXPOSED HYPERSENSITIVE AREAS
BY REGENERATING ENAMEL MINERAL*

HYPERSENSITIVITY TOOTHPASTE

REGENERATE™

MEDICAL DEVICE. CLINICALLY PROVEN.

* Acts on early invisible stages of enamel damage by restoring its mineral content with regular use

BREAKTHROUGH
PATENTED
NR-5+™ TECHNOLOGY
INTENSIVE CARE

The result of a global scientific endeavour, the patented NR-5+™ technology intensive care formula forms a fresh supply of enamel mineral that wrap and integrate onto teeth activating a cycle of regeneration* **to deeply rescue the exposed hypersensitive areas.**

CLINICALLY PROVEN MEDICAL DEVICE

REGENERATE™ Hypersensitivity Toothpaste is clinically proven to effectively treat hypersensitivity in an extensive clinical study conducted in collaboration with a leading UK university.

* Acts on early invisible stages of enamel damage by restoring its mineral content with regular use

HYPERSENSITIVITY TREATED.
